### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with the attorney Carl Schaukowitz on June 6, 2007.

The application has been amended as follows: In the Amendment filed on May 22, 2007

- Claim 20, line 13, "and a slot" has been deleted.
- Claim 20, lines 15-16, "the slot extending longitudinally and in communication with the joint opening part," have been deleted.
- Claim 20, line 19, "straddling the slot" has been deleted.
- Claim 20, lines 21-22, "adjacent the slot" have been deleted.
- Claim 20, line 33, "locking projection" has been changed to -- locking pin --.
- Claim 20, line 33, "the slot" has been changed to -- the joint opening part --.

### **REASON FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance: For claim 1, in combination with all the limitations recited in the independent claim, all the prior arts do not show an optical receptacle comprising a tubular main housing, a socket housing inserted and attached to the main housing and a locking slotted pin mechanically integral with the socket housing and extending from an outer peripheral surface of the socket housing, locking into a

printed board, wherein the locking slotted pin provides an electrical connection between the socket housing and the printed board.

For claim 20, in combination with all the limitations recited in the independent claim, all the prior arts do not show an optical receptacle comprising a tubular main housing having a passageway extending longitudinally and divided into a connection opening part and a joint opening part by a partition; two pairs of opposing locking parts, each one of the locking parts connected exteriorly of the tubular main housing and projecting perpendicularly relative to the longitudinal axis and arranged in plan view relative to one another in a rectangular configuration with one pair of the opposed locking parts; and a socket housing having a slotted locking pin connected to a main wall of the socket housing and extending perpendicularly relative to the longitudinal axis and projecting away from the main wall, wherein the socket housing and the slotted locking pin are received by the joint opening part.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hae M. Hyeon whose telephone number is 571-272-2093. The examiner can normally be reached on Mon.-Fri. (8:30-5:30).
